AMER★BOX

WASH, TRANSPORT & STORE
ALL IN ONE

- AMERBOX racks are easy to handle with 1.3cm overlap area and smooth sides.
- These racks interstack with all racks from major dishrack manufacturers.
- Open inside compartments provide thorough circulation of water and cleaning solutions and promote quick and thorough drying.
- Extremely durable, long-lasting polypropylene built to withstand chemicals and high temperatures up to 93 degrees celsius.
- Closed external walls are designed for optimum cleaning and storage racks keep finger and contaminants out and reduce risk of breakage and injury.
- Easy to carry, easy to grip handles on all four sides as well as smooth overlapping sides and rounded corners reduce the risk of injury.

PERFECT WASHING AND SANITARY STORAGE SYSTEM

Glassware stays clean when in storage, therefore no need to re-wash before use. Open outer wall is closed & keeps out pollutions, such as dirty water, viruses, insect and pest, contaminant, dust and dirty hand. Clean glassware would need to be washed again after being polluted, it wastes time and money.

Large perforated bottom facilitates thorough penetration of water and detergent during washing.

FINGERPRINTS-FREE GLASS

Full-sided rack protects the washed glass against unnecessary touch during storage or transport to destination, which reduces the time needed for additional polishing.

HEALTH SAFETY

Full-sided rack and extra options, namely upper cover and trolley, assure efficient and safe transport of glass and protect it against pests.

QUICK IDENTIFICATION OF GLASS

Various colors of base rack bottom help quickly identify the type of glass even from a distance, without the need to remove stacked baskets.

CONVENIENT STORAGE AND TRANSPORT

Suitably shaped edges of rack allow stacking, which reduces the footprint in warehouse and increases packing and transport efficiency.

NO MORE WET FLOOR

Collection reservoir of the trolley collects the water dripping from the glass in the baskets.

Easy car and manual transport

HACCP

Made of polypropylene highly resistant to detergents and high temperature (up to 199°F/+93°C)
